

## Levels of Organization: Organisms to Organelles

|                | Organism | Cell | Organelle |
|----------------|----------|------|-----------|
| Food           |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
| Water          |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
| Waste removal  |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
| Chaltan        |          |      |           |
| Shelter        |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
| Transportation |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
|                |          |      |           |
