## INVESTIGATING NEANDERTHALS

---

1. What do you think it means that there were once several different kinds of hominids coexisting on the planet?

2. How do we learn about Neanderthals? What do we know about them?

3. What is the main physical difference between a Neanderthal and a modern human?

4. How might studying head shapes help scientists learn about human evolution?

5. Why do you think Neanderthals became extinct?
