

Island Ecosystems Viewing Guide and Worksheet

Circle the name of the ecosystem type you are studying:

TERRESTRIAL

COASTAL

REEF

As you go through the interactive activity, look for the following. Write down notes in the space provided. Use the back of the page if you need more space.

Signs that the ecosystem is healthy
Services that the ecosystem provides that help people survive
Human activities that can harm the ecosystem
Climate change factors that can harm the ecosystem

Human activities that can help a damaged ecosystem

As you watch the video, answer the following questions:

1. What threats are described in the video?

2. What may happen as a result of these threats?

3. What action have people taken to increase resilience?

4. Have you experienced this (or anything like this) on your island? Describe.
