Name _____

Using Scientific Inquiry to Explore Whale Hearing

Directions: Watch the Ologist Whale Expert video. Then answer the questions below.

1. How did Dr. Ketten become interested in the topic?

2. What question was she trying to answer?

3. How did she investigate the question? What observations and data (information) did she collect to answer this question?

4. How did the data help her answer her question?

5. Why is hearing important for the survival of whales?
